

# X-STRESS 2000G

X-STRESS, Gray, 13-Gauge Nylon Shell, Gray Polyurethane Palm Coating

## Key Features & Benefits:

- Lightweight, comfortable, breathable and built for all day wear.
- Polyurethane coatings are applied to the surface of glove liners to provide a tactile grip in dry and slightly oily conditions.
- Ideal for applications that require dexterity for precise handling.
- Elastic Knit Wrist helps prevent dirt and debris from entering the glove.

**ANSI/ISEA 105**

**EN 388**

**4131**

| Applications:                                                                                                                                                             |  | Industries:                                                                                                                                                                                | Certifications/Ratings:                                                                                                                                                                                                                                                                                                      |
