The Squids® 3137 Padded Barcode Scanner Sling Lanyard is designed to keep barcode scanners secure and accessible. This industrial-grade scanner sash lanyard is built with a heavy-duty webbing strap for work in the harshest environments. Airprene shoulder padding provides long lasting comfort, while a hook & loop breakaway design allows the sling to safely detach from the worker in emergency situations.

Two small loop attachments on the lanyard easily connect and disconnect to small captive holes built into cordless barcode scanners.

Replacement Barcode Scanner Loop Attachments (10-pack) sold separately. Additional features include an ID badge holder and pen loops for convenient storage and quick access. For increased visibility in busy distribution centers and warehouses, the scanner sling has hi-vis and reflective striping.

One-size-fits-all, the webbing strap is adjustable to fit a variety of workers. Additional/replacement loop attachments are sold separately in packs of 10. This sling lanyard prevents expensive scanners from being dropped, causing damage to the scanner, other items/equipment or workers on the job. It is ideal for attaching to cordless barcode scanners for work in warehouses, distribution centers, material inventory on construction and steel sites, airline baggage scanning and grocery/personal shopping.
