The Squids® 3138 Padded Barcode Scanner Harness + Lanyard is designed to keep barcode scanners secure and accessible. This industrial-grade scanner harness is built with heavy-duty webbing straps and buckles for work in the harshest environments. Airprene shoulder padding provides long lasting comfort, while a hook & loop breakaway design allows the sling to safely detach from the worker in emergency situations.

Two small loop attachments on the lanyard easily connect and disconnect to small captive holes built into cordless barcode scanners. Additional features include an ID badge holder and pen loops for convenient storage and quick access.

The Scanner Harness + Lanyard comes in small and large sizes, each adjustable to accommodate a variety of body sizes. Additional/replacement loop attachments are sold separately in packs of 10.

This scanner harness prevents expensive scanners from being dropped, causing damage to the scanner, other items/equipment or workers on the job. It is ideal for attaching to cordless barcode scanners for work in warehouses, distribution centers, material inventory on construction and steel sites, airline baggage scanning and grocery/personal shopping.
