

ProFlex®

7001

NITRILE COATED DSX

The ProFlex® 7001 Nitrile-Coated Gloves with DSX™ dip technology are designed to provide excellent grip in dry conditions. Offering a close, second-skin fit for top-of-the-line dexterity, breathability and comfort when working with small parts in manufacturing or assembly. This soft, flexible fit is thanks to 18-gauge seamless ANSI level 2 abrasion-resistant nylon + spandex knit blend.

Features

- **SUPERIOR DRY GRIP** – DSX™ dip technology provides best performing grip in dry conditions
- **ULTRA LIGHTWEIGHT** – 18-gauge seamless knit for ultimate dexterity
- **TOUCHSCREEN CAPABLE** – Stay connected with touchscreen fingertips
- **ABRASION RESISTANT** – ANSI level 2 abrasion resistance
- **SEAMLESS KNIT WRIST** – Prevents dirt and debris from entering the glove
