

PROFLEX®

7031

A3 NITRILE COATED

The ProFlex® 7031 Nitrile-Coated Cut-Resistant Gloves are designed to provide durability and grip in all conditions, wet or dry. The 13-gauge A3 cut protection liner is cut, puncture, and abrasion resistant for the toughest environments. The reinforced thumb dip adds extra protection in a high-wear area. These nitrile-coated gloves also feature ANSI level 4 abrasion resistance for long wear.

Features

- CUT PROTECTION – ANSI A3 Cut Protection
- DURABILITY – Thumb dip reinforcement provides extra strength and durability to extend service life
- ABRASION RESISTANCE – ANSI level 4 abrasion resistance
- VERSATILE GRIP – Sandy Nitrile dip provides excellent grip for all conditions
- SEAMLESS KNIT WRIST – Prevents dirt and debris from entering the glove
