- RECHARGEABLE - Charges via USB-C cable (included), battery gauge indicates battery level using colored LED lights
- TESTED AND CERTIFIED - Drop tested to 10ft // 3m; IP54 rated for dust and water resistance
- WEIGHT - 2.34oz // 66g

The Skullerz 8993 Hard Hat Red Safety Light easily attaches directly to any Skullerz Hard Hat or Safety Helmet light mount for use as a beacon light. When clipped to the back built-in mount, this safety light will throw light in four directions to keep workers visible and safe from far distances in low-light conditions.

This red safety light features a built-in magnet on the back for securely attaching the light to metal on the worksite or for storing when not attached to a hard hat or helmet. Simply detach from the built-in mounting bracket to use as a portable beacon light or to charge.

Designed for the utmost safety and visibility in a variety of environments, this red safety light has four working modes: high or high pulse for maximum light (22 lumens for 5 hours on high, 10 hours on high pulse) and low or low pulse for maximum

life (4.9 lumens for 22 hours on low, 52 hours on low pulse). A one-button switch makes for easy switching between modes.

A battery gauge indicates level of battery life using colored LED lights with easy recharging using a USB-C cable (included).

This magnetic beacon light is IP54 rated for dust and water resistance.

Ideal for worksite where long-distance visibility is needed for worker safety, including road construction, rigging, mining, oil & gas and general site work.
