Vinyl

➤ **WEIGHT**

217 grams (7.65 oz) approx.

➤ **WARNING**

This bump cap should not be used in lieu of a protective cap for protection against impacts to the head. – Provides only a covering for the scalp to reduce exposure to abrasions and lacerations due to minor bumps. – Impacts against this cap may cause injury to the head, neck, spine or other vital members.

Revision: January 6, 2000

Page 1 of 2

This cap provides no protection against electrical shock. – Contact with live electrical wires or hot electrical equipment may result in injury or death.

Exposure to heat, ultraviolet radiation or chemical will degrade this polyethylene cap. – Examine the shell and suspension for cracks and other evidence of deterioration, and discard shell if they are found.

Made in Canada
