

BH26G

Optional foam gasket for
Sawfish™ style glasses

*Optional see below

LENS Blue Mirror Performance Fog Technology Polarized

FRAME Tortoise/Black

DESCRIPTION

The Sawfish™ is an ultra-light, full-frame design that boasts chiseled lines and sleek curvature. Featuring inset TPR on the nose bridge and temple ends, the Sawfish™ is truly adaptable to any environment. This model features polarized precision lenses, which filter out bent light waves reducing glare, eye fatigue and decreasing reflection off surfaces such as water, sand, and snow. The BH2679PFT also features a PFT lens. Thanks to its chemical and physical properties, Performance Fog Technology is a permanent coating that prevents the formation of condensation on the lenses by absorbing the humidity drops.

BH26G - Optional foam gasket for all Sawfish™ styles.
