

BH9G

Optional removable flame resistant foam gasket available for all Dorado® safety glasses.

*Optional see below

LENS Blue Mirror Performance Fog Technology Polarized

FRAME Shiny Black

DESCRIPTION

The lightweight, contemporary full frame of the Dorado® features dual lenses for improved protection and 100% visual correctness. Comfort-fit rubber temples and nose pieces prevent eyewear from slipping while also providing maximum comfort. This model features polarized precision lenses, which filter out bent light waves reducing glare, eye fatigue and decreasing reflection off surfaces such as water, sand, and snow. The BH95129PFT also features a PFT lens. Thanks to its chemical and physical properties, Performance Fog Technology is a permanent coating that prevents the formation of condensation on the lenses by absorbing the humidity drops.

BH9G - optional removable flame resistant foam gasket available for all Dorado® safety glasses.
