

FROGWEAR™ KNEE PROTECTION

Lightweight Non-Marring Blue Hinged Knee Pads with High-Density Foam Padding and a TPR Cap

ITEM KP360

DESCRIPTION

These lightweight, non-marring knee pads have a blue plastic body with a black TPR cap. The hinged design provides a flexible fit. Features adjustable elastic closures with buckles to allow the user a customized fit for added comfort. The user's knee is cushioned with a 1.8 cm thick high-density foam padding. Each pair is individually packaged in a polybag and hang-tagged for retail sale.

FEATURES

- Non-marring materials
- Hinged design provides a more flexible fit and allows for greater mobility
- High-density foam 1.8 cm thick padding with a heavy-duty outer shell
- Soft cap helps provide traction while preventing scuffs and scratches on most surfaces
- Ergonomically curved fit
- Adjustable elastic closures with buckles
