

FROGWEAR™ KNEE PROTECTION

Premium Non-Marring Gel-Lined Hinged Knee Pads with High-Density Foam Padding and a TPR Cap

ITEM KP481G

DESCRIPTION

These premium, non-marring knee pads have a black, heavy-duty polyester body with a flexible, clear TPR cap. The hinged design provides a flexible fit. Features breathable neoprene thigh and calf straps with adjustable hook-and-loop closures and pull tabs to allow the user a comfortable, secure fit. The user's knee is cushioned by a thick, high-density foam padding lined with gel.

Each pair is individually packaged in a polybag and hang-tagged for retail sale.

FEATURES

- Non-marring materials
- Hinged design provides a more flexible fit and allows for greater mobility
- Breathable dual-layer of padding with high-density foam all around and gel in the middle for increased comfort and pressure displacement
- Flexible heavy-duty outer shell provides traction while preventing scuffs and scratches on most surfaces
- Ergonomically curved fit
- Adjustable neoprene hook-and-loop closures for increased comfort and a customized fit
