Please note: The tie-dyeing process gives each garment unique character. Please allow for slight color variation in production and washing.

Care Instructions: Due to the nature of tie-dye, loose pigments may remain on the surface of the garments. Therefore it's strongly recommend washing these garments only with like-colored garments, as some of the tie dyes may stain light or white colored garments in the wash cycle.

Washing the garments in cold water will reduce the possibility of staining.

***PFD Note:** Our PRM4500 & PRM3500 Prepare For Dye sweatshirts are not 100% Cotton. They are a 3-End Knit with 100% cotton Face Yarn, 100% Polyester Middle Yarn, and 80% Cotton/20% Poly back yarn. We chose this blend to achieve some stretch, and an ultra-soft feel for our tie dye that isn't found in 100% Cotton. Please do your own testing prior to bulk production. Tie Dyes, Pigment Dyes, and other unique dyes/washes work best on this garment. The sewing thread on this PFD Garment is a polyester core cotton sheath thread. We use this to achieve the strength of polyester thread with the dye capabilities of Cotton thread.
