Uvex Instinct™
SAFETY EYEWEAR

HIGH PERFORMANCE

PROTECTION

Uvex Instinct eyewear provides the fit, performance and protection required for virtually any application.

Ratcheting temples adjust lens inclination by up to 15° for a customized fit

Sleek temples feature an aggressive wrap-around design, providing a secure fit with minimal tension

Padded temple tips cushion the delicate areas above and behind the ear providing a secure, comfortable fit

Uvex Instinct™

Uvex Instinct provides high-performance protection with a sleek design and lightweight frame, featuring a variety of adjustability features for a comfortable, customized fit. The soft, flexible fingers on the nosepiece help to minimize slippage, while the slim, curved temples provide a secure fit with minimal tension around the ears.

Uvex Instinct is equipped with a dual 7-base wrap-around lens for uncompromised peripheral vision, with a fully integrated, cushioned browguard to comfortably diffuse and deflect impact energy. Available in a variety of lens tints with market leading Uvextreme® Plus anti-fog and Supra-dura® anti-scratch lens coatings, Uvex Instinct provides the fit, performance and protection required for virtually any application.

- Certified to ANSI Z87.1-2010, CSA Z94.3 and the U.S. Military ballistic impact resistance requirements for eyewear (MIL-PRF-31013, CLAUSE 3.5.1.1)

10X ANTI-FOG | 2X SCRATCH RESISTANCE

Uvextreme Plus anti-fog coating performs under the most extreme conditions providing superior fog-free vision that lasts up to 10X longer* and provides 2X better scratch-resistance* than competitive anti-fog coated products.

Supra-Dura advanced anti-scratch coating is perfect for high-particulate environments where lens scratching is a severe problem. This coating lasts 5X longer* than any other anti-scratch coating available.

*Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application. Anti-fog performance based on independent lab test results.

LENS TINTS

- Clear - Ideal for most indoor work applications
- Gray - Minimizes outdoor sunlight and glare
- Amber - Ideal for low-light applications where enhanced contrast is needed
- Blue Mirror - Deflects sunlight and glare

Uvex (SCT) Spectrum Control Technology®

Lens Tints are specifically designed to minimize the effects of exposure to Ultraviolet (UV) radiation, protecting workers from potential injury such as temporary or even permanent eye damage or blindness.

Uvex Instinct SCT-Gray lenses filter 99.9% of UV radiation, 93% of blue light hazard and 85% of IR Radiation, while providing true color recognition, allowing workers to easily distinguish wire colors and other fine detail. Ideal for indoor applications, SCT-Low IR lenses do not affect color recognition yet filter 99.9% of UV radiation and 40% of IR radiation.

S2829XP

S2825XP

- SCT-Reflect 50 - Light mirror coating ideal for varying light conditions
- SCT-Gray - Minimizes outdoor glare and offers true color recognition
- SCT-Low IR - For use where peripheral IR protection is required
