

- Zip front closure
- Stretchable polyester side panels
- Sizes run small
- 1 per bag

Packaging

Bag:	1/bag
Sell Pack:	Each
Manufacturing Location:	China

Size:	Item #:
MD	21570
LG	21571
XL	21572
2X	21573
3X	21574
4X	21575
5X	21576

Coolerz® Vest uses an advanced evaporative cooling system with a water management system to maximize cooling, while minimizing moisture transfer to the wearer.

- Enhanced cooling capacity
- Managed and directional evaporative cooling release
- Cools longer than other evaporative systems
- Reduces wetness to wearer
- Water repellent nylon inner
- Quilted nylon outer

Coolerz® with Hyperkewl™ products utilize a unique polymer chemistry to achieve rapid absorption and stable water storage. The chemical formulation creates enhanced evaporation and longevity. Users can expect the evaporative cooling fabric to provide temperatures that are up to 15 - 20 degrees (F) cooler than the ambient temperature. The exact temperature difference will depend on humidity, exposure to airflow and other environmental conditions.

Easy to use. Simply submerge in water for 1-2 minutes, then gently remove excess water.

Garments will remain hydrated for several hours and can be rehydrated as needed.
