

- Adjustable hook and loop attaches to hard hat suspension
- 6 per bag

Packaging

Bag:	6/bag
Sell Pack:	Each
Manufacturing Location:	China
Item #:	21563

Hard Hats Sold Separately

Coolerz® Neck Shield uses an advanced evaporative cooling system with a water management system to maximize cooling, while minimizing moisture transfer to the wearer.

- Enhanced cooling capacity
- Managed and directional evaporative cooling release
- Cools longer than other evaporative systems
- Reduces wetness to wearer
- Water repellent nylon inner
- Quilted nylon outer

Coolerz® with Hyperkewl™ products utilize a unique polymer chemistry to achieve rapid absorption and stable water storage. The chemical formulation creates enhanced evaporation and longevity. Users can expect the evaporative cooling fabric to provide temperatures that are up to 15 - 20 degrees (F) cooler than the ambient temperature. The exact temperature difference will depend on humidity, exposure to airflow and other environmental conditions.

Easy to use. Simply submerge in water for 1-2 minutes, then gently remove excess water.

Garments will remain hydrated for several hours and can be rehydrated as needed.
