The ProFlex® 7141 Hi-Vis Nitrile-Coated Level 4 Cut-Resistant Gloves are designed with two new technologies to create the most comfortable, breathable and best gripping ANSI cut level 4 gloves on the market. Plus, TPR Armor™ on the knuckles and fingers provides superb dorsal impact protection (DIR).

Features

- TenaLux™ yarn provides A4 cut protection without fiberglass or steel for non-irritating comfort
- WSX™ dip technology provides superior grip in oily and wet conditions
- WSX™ dip combined with TenaLux™ yarn is fully breathable and cool to the touch
- Molded TPR Armor™ for full dorsal impact protection
- Machine washable

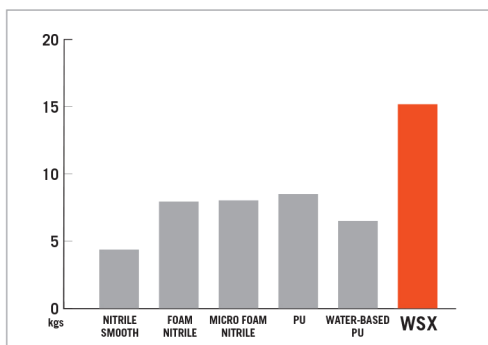

Application

- Heavy construction
- Oil & gas
- Mining
- Demolition
- Ironwork or cargo handling

WSX™ Grip + TenaLux™ Yarn

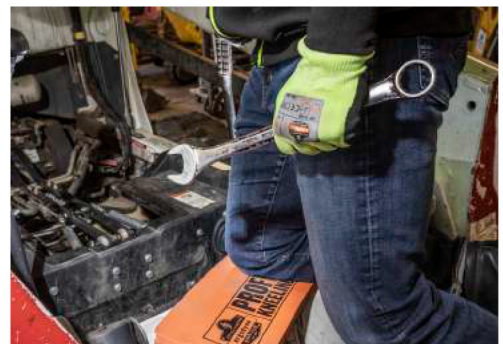

The best oily/wet grip in the biz meets the coolest A4 cut protection around.

WSX™ GRIP VS. COMMON KNIT GLOVE DIPS

WSX™ tech out-grips the five most common dips on the market today in performance tests.

FULLY BREATHABLE. COOL TO THE TOUCH.

TenaLux™ yarn gives workers the most breathable A4 cut protection they can get – NO irritating steel or glass fibers.
