

Spandex/Synthetic Leather Insulated Gloves

DESCRIPTION

These work gloves are constructed of spandex backing to provide excellent comfort with a AireFlex[®] synthetic leather palm and finger tips. AireFlex[®] washes easily, is durable and flexible. Featuring special tacky PVC reinforcement in all grip and wear areas for outstanding grip and better wear characteristics. This glove has 40 grams of 3M[™] Thinsulate[™] Insulation, a hook and loop closure plus a water proof bladder inside to keep hands warm and dry.

Each pair is individually hook tagged.
