Dipped Specification Sheet

PRODUCT DESCRIPTION:

The next level protection of DSM's Black Dyneema® Diamond Technology is the first high performance fiber in the market that delivers high levels of cut protection without steel or glass fiber reinforcements. This means maximum protection without the discomfort of steel fibers, as well as the brittleness and short protection lifespan of glass fibers. Black Dyneema® Diamond Technology provides all day comfort and radiates heat away from the hands, keeping hands cool. The color is embedded into the fibers, staying rich throughout the lifetime of the products made with Black Dyneema® Diamond Technology. The Black Dyneema® Diamond Technology is launderable allowing longer use. The 90730 is a 13 gauge Black Dyneema® Diamond Technology shell with a black sandy nitrile foam coated palm and fingers.
