9402KM

String Knit
Specification Sheet

PRODUCT DESCRIPTION:

Most terry cloth is made with cotton because the absorbent fiber gets stronger when wet and it can be sanitized in very hot water using strong bleach and detergent without harm. Cotton terry cloth can absorb up to 27 times its own weight in water. Terry cloth also provides excellent thermal properties. Terry cloth is most often used for loght heat applications in the industrial market. The 9402KM is an 18 oz seamless regular weight terry glove that is made of a cotton/polyester blend. Small Size

FEATURES:

- Small Size
- 18 oz. Loop- out Cotton/Polyester blend
- Provides comfort and warmth
- Provides basic cut, abrasion and heat protection
- Knit Wrist

APPLICATIONS:

Bakeries, Food service, Cold storage applications, Stamping
