9475M

String Knit Specification Sheet

PRODUCT DESCRIPTION:

Most terry cloth is made with cotton because the absorbent fiber gets stronger when wet and it can be sanitized in very hot water using strong bleach and detergent without harm. Cotton terry cloth can absorb up to 27 times its own weight in water. Terry cloth also provides excellent thermal properties. Terry cloth is most often used for light heat applications in the industrial market. The 9475M is a 15" Terrycloth sleeve that features 16 oz. loop out material.

FEATURES:

- 16 oz. Loop-out Cotton/Polyester blend
- 15 inches in length
- Provides basic cut, abrasion and heat protection
- Provides comfort and warmth

APPLICATIONS:

Bakeries, Cafeteria, Casting, Metal fabrication

TECHNICAL DATA FOR: 9475M
