ForceFlex Mechanics Gloves

Mechanics Gloves

PRODUCT DESCRIPTION:

Impact resistant gloves for excellent protection from shocks and jolts. The Zoombang® polymer is soft and fluid like to the touch. Upon impact, the Zoombang® stiffens and locks to a solid state providing maximum protection. After impact, Zoombang® returns to its soft, fluid like state. At rest, Zoombang® will simply conform to the exact shape of whatever it is supporting. Add energy, in the form of shock, and the material will instantly stiffen. MCR Safety has exclusive distribution of the patented Zoombang® technology for industrial hand protection.
